

Abdel Karim Doudey

[LinkedIn](#) | Tunisia | abdelkarim.doudey@ensi-uma.tn | [GitHub](#) | [Portfolio](#)

Summary

- Computer engineering student at ENSI (Université de la Manouba) with a DevOps focus. Comfortable with the full delivery chain: containerization, CI/CD, Kubernetes, Infrastructure as Code and observability, applied to real full-stack projects (NestJS, Angular, MEAN). Seeking a DevOps internship.

Skills

- DevOps & Cloud:** Docker | Kubernetes (kind) | Helm | Terraform | Ansible | AWS | GitHub Actions (CI/CD) | Nginx | Linux/Terminal
- Observability & Testing:** Prometheus | Grafana | Loki | Grafana Alloy | Alertmanager | Sentry | k6
- Development:** TypeScript | JavaScript | NestJS | Prisma | Node.js/Express | Angular | Python (FastAPI, scikit-learn) | C | C++ | Java
- Databases & Tools:** PostgreSQL | MongoDB | MySQL | Git | GitHub | Postman | Firebase
- Languages:** Arabic (native) | English (fluent) | French (intermediate)

Projects

AIops: Log Anomaly Detection Platform

[GitHub](#)

- End-to-end DevOps platform that uses machine learning to automatically detect anomalies in application logs and alert the team on Slack within a minute. Built in 12 phases to cover the full delivery chain: Dockerized NestJS/Angular app, CI/CD with GitHub Actions, Kubernetes with Terraform, and observability with Loki, Prometheus and Grafana.

Cyber Park HR: HR Management Application

[GitHub](#)

TechGear: Tech E-Commerce Platform

[Live demo](#)

- E-commerce platform for smartphones, laptops, audio gear and wearables, built with NestJS, Prisma and Angular, with Stripe payment integration; frontend deployed on Vercel.

Experience

Engineering Intern (Summer) **ABBK PhysicsWorks** *Tataouine, Tunisia* **18/06/2026 - 18/07/2026**

- Designed and developed Cyber Park HR, a MEAN stack web application for company management (employees, departments, attendance, leave).
- Deployed the frontend and backend to production and validated performance under load.
- [Internship certificate](#) issued by ABBK PhysicsWorks.

Education

ENSI, Université de la Manouba *Manouba, Tunisia* **2025 - Present**

- National Engineering Degree in Computer Science.**

CNC National Entrance Competition *Nabeul session* **2023 - 2025**

- Admitted** to engineering cycles; Baccalaureate in Experimental Sciences (Lycée Brormit, Tataouine, 2023).

Activities

- Code Quest 3.0** (ACM INSAT Student Chapter): participant. [Certificate](#)
- Darkest Hour CTF** (Securinets INSAT, 2025): forensics and cryptography challenges.
